## Women in Engineering

We were lucky enough to be invited to spend some time in the Schneider factory, based in Southway, to promote and celebrate Women in Engineering. As part of this experience, the children got to meet some of the women who work within Schneider, finding out about their roles and responsibilities, and what it means to be part of an Engineering world. The children were able to work in groups alongside the team, as well as have a tour of the factory. We hope that engaging with this firm, our girls now have an open mind to possible avenues for future jobs and roles they can play in society.
